ASX RELEASE

Forrestania Secures Newington Gold Project Acquisition

Highlights:

- Forrestania Resources has entered into a binding agreement to acquire 100% of Midas Minerals (Newington) Pty Ltd from Midas Minerals Ltd (ASX: MM1), securing a strategic package of granted gold tenure in Western Australia's prospective Newington district
- Acquisition includes a portfolio of 10 granted mining and exploration tenements, comprising gold interests across the Newington project area
- Upfront consideration of \$1.5 million to be satisfied via the issue of Forrestania shares using existing ASX Listing Rule 7.1 placement capacity, preserving near-term cash resources
- Additional success-based deferred consideration payable only upon resource growth and development milestones, aligning vendor consideration with project advancement and shareholder value creation
- Transaction strengthens Forrestania's strategy of building a pipeline of Western Australian gold assets through disciplined acquisition and milestone-based structuring

Forrestania Resources' Chairman David Geraghty commented:

"The Newington acquisition represents another important step in Forrestania's strategy of securing quality gold opportunities across Western Australia through disciplined and shareholder-aligned transaction structures.

Importantly, the acquisition preserves capital while securing a strategic tenure package with exploration upside and milestone-linked consideration tied to project success. This provides Forrestania with additional optionality as the Company continues to grow its gold asset portfolio and advance its broader development strategy."

Forrestania Resources Limited (“FRS” or “the Company”) is pleased to advise that it has entered into a binding Heads of Agreement to acquire 100% of Midas Minerals (Newington) Pty Ltd, a wholly-owned subsidiary of Midas Minerals Ltd, which holds a portfolio of gold-focused tenements in Western Australia.

The acquisition comprises a strategic package of granted mining and exploration tenure, including wholly-owned and joint venture interests, providing Forrestania with additional exploration exposure in a prospective Western Australian gold district.

The Newington Project

The Newington Project area totals about 212 km² and is located 90km north of Southern Cross. Tenements cover a 33km strike of the northern extent of the Southern Cross Greenstone Belt. The Southern Cross Greenstone Belt hosts numerous gold deposits and is considered highly prospective.

The project has significant prior gold production and significant drill intercepts on existing mining leases (refer Midas Minerals Ltd ASX release dated 4 April 2022) and Midas has identified historical gold workings which have not been drill tested (refer Midas Minerals Ltd ASX release dated 16 January 2023).

Transaction Terms

Under the binding agreement, Forrestania will satisfy upfront consideration through the issue of \$1.5 million in Forrestania shares, calculated using the 5-day VWAP immediately preceding execution of the agreement. This consideration will be issued under the Company’s existing placement capacity, preserving cash while securing the acquisition.

In addition, Forrestania has agreed to a performance-based deferred consideration structure, payable only upon achievement of specific project milestones, including:

- \$1.0 million upon either or both delineation of a Mineral Resource (as defined in the JORC Code (2012 Edition or its successor)) (Delineated) or extraction of an initial 50,000 ounces of gold using a cut-off grade of 0.5g/t;
- \$200,000 upon each additional 10,000 ounces of gold which is either or both Delineated or extracted thereafter using a cut-off grade of 0.5g/t; and
- \$1.0 million upon announcement of a formal decision to mine on any of the project tenements.

Deferred consideration may, at Forrestania's election, be settled in cash or Forrestania shares (based on a 5-day volume-weighted average price immediately preceding the relevant Milestone having been satisfied), ensuring flexibility while aligning vendor outcomes with project success.

Strategic Rationale

The transaction continues Forrestania's strategy of selective acquisition of gold assets through capital-efficient deal structures, securing additional tenure upside while limiting upfront capital exposure.

The Company believes the acquisition provides further optionality within its broader Western Australian gold portfolio and complements Forrestania's ongoing strategy of building a pipeline of exploration, resource growth and future development opportunities.

Completion

Completion remains subject to customary regulatory and third-party approvals, including any ministerial consents required, with completion expected to occur within the coming weeks following satisfaction or waiver of conditions precedent.

This announcement has been authorised for release by the Board of Forrestania Resources Limited.

About Forrestania Resources Limited

Forrestania Resources Limited (ASX: FRS) is a rapidly growing gold exploration and development company focused on building a portfolio of high-quality projects across Western Australia's premier mining districts.

Led by a refreshed and experienced board, Forrestania is strategically expanding its footprint across the Southern Cross, Eastern Goldfields and Forrestania regions through disciplined exploration, selective acquisitions and a commitment to unlocking the broader potential of these highly prospective belts.

In the Southern Cross district, the Company is advancing a strategy to define significant gold resources that can support long-term development opportunities.

The Forrestania Project, from which the Company takes its name, lies within a world-class mineral province adjacent to the historic Bounty gold mine (~1Moz historic production) and in proximity to major mining operations, underscoring the region's exceptional prospectivity.

Further north, Forrestania's projects near Coolgardie and Menzies provide additional exposure to gold and base metals within proven mineralised corridors of the Eastern Goldfields.

Forrestania Resources is dedicated to creating shareholder value through systematic exploration, strong technical execution and a focused approach to growing its gold asset base across Western Australia.
