

30 April 2026

Quarterly Activities Report — March 2026

Key Highlights:

During the March 2026 quarter, Forrestania Resources Limited (**ASX: FRS**) (“**Forrestania**” or “**the Company**”) delivered the following key milestones:

- 100% acquisition of Kula Gold Limited following takeover completion
- Acquisition of the Lake Johnston Processing Facility from Maritana Minerals
- Execution and completion of multiple other transactions including the acquisition of Macphersons Reward Pty Ltd, completion of Gibraltar, Jaurdi Hills and Johnson Range tenement packages acquisitions amongst other significant acquisitions
- Appointment of Polaris Engineering and Como Engineers for the refurbishment of the Lake Johnston Processing Facility ahead of planned commissioning in Q4 CY2026
- Transitioned Forrestania to gold producer via the execution of an Ore Purchase Agreement with Westgold Resources Ltd, with 20,000t delivered to the Higginsville plant for processing
- Successful exploration drilling campaigns at British Hill and Lady Lila, with further drilling underway
- Cash on hand as at 31 March 2026 was \$2.5m, with a further \$31.5m in cash received from the exercise of share options during the month of April 2026.

Key Activities

Lake Johnston Processing Facility Acquisition

During the quarter, Forresteria successfully completed the acquisition of the Lake Johnston Processing Facility from Maritana Minerals (ASX: MRT), paving the way for Forresteria to commence modifying the plant to process gold ore, supporting a pathway to near-term production from its growing gold portfolio (refer to ASX announcement dated 13 February 2026).

Forresteria subsequently executed commercial agreements with Polaris Engineering Services (“Polaris”) and engaged Como Engineers Pty Ltd (“Como”) to executed various work packages ahead of planned process plant commissioning in 2026 (refer ASX announcements dated 20 and 23 February 2026).

Polaris are engaged to advance the next stage of development of the Lake Johnston Processing Facility, delivering the construction of a new carbon-in-leach circuit and a broader plant refurbishment. The total potential contract value of up to A\$58.5 million has a flexible payment structure via the issue of Forresteria scrip (issued at a 12% premium to VWAP) and an optional cash substitution at the sole discretion of Forresteria. Como has been engaged to supply a fully automated modular elution circuit and gold room. Plant commissioning is set to commence in 2026.

Tenure Expansion – pathway to production

Forrestania executed and completed several significant tenement and corporate acquisitions throughout the quarter. These transactions have included:

- Completion of the Kula Gold Limited takeover, with the acquisition providing a portfolio of growth assets across the Forrestania, Southern Cross and Eastern Goldfields regions, comprising complementary projects strategically located near established processing infrastructure.
- Execution and completion of the Aurumin Mt Palmer Pty Ltd, Aurumin Johnson Range Pty Ltd and Aurumin Mt Dimer Pty Ltd entities from Newcam Minerals Pty Ltd, consolidating tenure within the Mt Palmer and Mt Dimer project areas.
- Acquisition the Macphersons Reward Pty Ltd for from Beacon Minerals Limited (ASX: BCN). The MacPhersons' tenement package includes several Mining Leases and includes approved and operating mining operations, located within Forrestania's existing Coolgardie Hub.
- Completed the purchase of tenure around the Jaurdi Hills region in Coolgardie, expanding the Company's Bonnie Vale project area of interest.
- Completion of Gibraltar tenement acquisition within the Coolgardie region, with the tenement package including several Mining Leases and an approved and operating vat leaching circuit.
- Acquired Mantis Resources Pty Ltd, securing exploration licences E63/2256, E63/2244 and application E63/2411 proximal to Lake Johnston.

Each of the acquisitions represent a strategic consolidation of prospective tenure near existing processing infrastructure and supports Forrestania's regional growth strategy,

Ore Purchase Agreement

The Company executed an Ore Purchase Agreement (OPA) with Westgold Resources Ltd (ASX: WGX) during the period for approximately 150,000 dry tonnes of material. As at the end of the quarter, Forrestania had delivered approximately 20,000 tonnes of material to be processed at the Higginsville processing facility (*refer ASX announcement dated 19 February 2026*). With Forrestania forecast to commence commissioning and subsequent operations at the 100% owned Lake Johnston processing facility later this year, the Company is currently prioritising stockpiling of material at Lake Johnston in lieu of processing material via the Westgold Resources toll treatment arrangement, with over 15,000 tonnes of material delivered to the Lake Johnston processing facility to date.

Exploration Activities

During the quarter, Forrestania completed diamond drilling at the Lady Lila project and commenced drilling activities at the British Hill Project (*refer ASX announcements dated 13 February 2026 and 13 March 2026*). During the quarter, the Company announced the completion of an initial British Hill drill program (10 holes for 2,655m). The drilling has successfully given the Company a stronger understanding of the geology of the deposits, as well as successfully testing mineralisation at depth and along strike.

First assay results from the Company's maiden RC drilling program at the Wozi Niobium Project ("Wozi") in Malawi were delivered during the quarter (*refer ASX announcement dated 30 March 2026*), with RC drilling at Wozi confirming high-grade, near-surface niobium mineralisation within a large,

previously defined mineralised system with a potential 1.5km length and up to 400m wide niobium soil anomaly, highlighting significant scale potential.

Figure 3: Lake Johnston Processing Facility

Corporate Activities

As of 31 March 2026, the Company held \$2.5 million in cash reserves. During the month of April 2026, the company received proceeds totalling \$31.5m following the exercise of share options.

During the quarter the Company concluded a share placement and share purchase plan, realising gross proceeds of \$37.0 million (including \$13.2 million received in the December 2025 Quarter). Funds received were applied toward the Lake Johnston Processing Facility acquisition, in conjunction with the acquisition of various tenement packages and working capital costs.

Forrestania completed a strategic 19.9% cornerstone investment in OzAurum (ASX: OZM) for \$4.1 million during the quarter. The investment supports OzAurum's advancement of heap leach development activities at its James Stage 1 Open Pit within the Mulgabbie North Project.

Forrestania appointed Mr Mark Di Silvio as Company Secretary, effective 1 March 2026.

A total of \$9,000 was paid in cash to related parties during the quarter (refer to item 6.1 and 6.2 in the attached Appendix 5B) which included director fees and superannuation. \$179,000 in additional director fees and superannuation were paid in shares or accrued for during the quarter.

This announcement has been authorised for release by the Board of Forresteria Resources Limited.

About Forrestania Resources Limited

Forrestania Resources Limited (ASX: FRS) is a rapidly growing gold exploration and development company focused on building a portfolio of high-quality projects across Western Australia's premier mining districts.

Led by a refreshed and experienced board, Forrestania is strategically expanding its footprint across the Southern Cross, Eastern Goldfields and Forrestania regions through disciplined exploration, selective acquisitions and a commitment to unlocking the broader potential of these highly prospective belts.

In the Southern Cross district, the Company is advancing a strategy to define significant gold resources capable of supporting long-term development opportunities. The Forrestania Project, from which the Company takes its name, lies within a world-class mineral province adjacent to the historic Bounty gold mine (~1Moz historic production) and in proximity to major mining operations, underscoring the region's exceptional prospectivity. Further north, Forrestania's projects near Coolgardie and Menzies provide additional exposure to gold and base metals within proven mineralised corridors of the Eastern Goldfields.

Forrestania Resources is dedicated to creating shareholder value through systematic exploration, strong technical execution and a focused approach to growing its gold asset base across Western Australia.

Important Notices

Competent Person's Statement

The information in this report that relates to exploration results is based on and fairly represents information compiled by Mr. Manohar Ghorpade. Mr. Ghorpade is the Chief Geologist of Forrestania Resources Limited and is a member of AusIMM. Mr. Ghorpade has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Ghorpade consents to the inclusion in this report of the matters based on information in the form and context in which they appear.

Disclosure

The information in this announcement is based on the following publicly available ASX announcements, which is available from <https://www2.asx.com.au/>.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original ASX announcements and that all material assumptions and technical parameters underpinning the relevant ASX announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are represented have not been materially modified from the original ASX announcements.

Please note that exploration results and technical information referred to in this Quarterly Activities Report were previously disclosed to the ASX in accordance with the ASX Listing Rules. No new exploration results or Mineral Resources are contained in this report. The Company confirms that the form and context in which the Competent Persons findings are presented have not been materially modified from the original market announcements. The Company divides its projects into several hubs (refer to Figure 2).

Cautionary statement regarding values & forward-looking information

The figures, valuations, forecasts, estimates, opinions and projections contained herein involve elements of subjective judgment and analysis and assumption. Forrestania Resources does not accept any liability in relation to any such matters, or to inform the Recipient of any matter arising or coming to the company's notice after the date of this document which may affect any matter referred to herein. Any opinions expressed in this material are subject to change without notice, including as a result of using different assumptions and criteria. This document may contain forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "expect", and "intend" and statements that an event or result "may", "will", "should", "could", or "might" occur or be achieved and other similar expressions.

Forward-looking information is subject to business, legal and economic risks and uncertainties and other factors that could cause actual results to differ materially from those contained in forward-looking statements. Such factors include, among other things, risks relating to property interests, the global economic climate, commodity prices, sovereign and legal risks, and environmental risks. Forward-looking statements are based upon estimates and opinions at the date the statements are made. Forrestania Resources undertakes no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such dates or to update or keep current any of the information contained herein. The Recipient should not place undue reliance upon forward-looking statements. Any estimates or projections as to events that may occur in the future (including projections of revenue, expense, net income and performance) are based upon the best judgment of Forrestania Resources from information available as of the date of this document.

There is no guarantee that any of these estimates or projections will be achieved. Actual results will vary from the projections and such variations may be material. Nothing contained herein is, or shall be relied upon as, a promise or representation as to the past or future. Forrestania Resources, its affiliates, directors, employees and/or agents expressly disclaim any and all liability relating or resulting from the use of all or any part of this document or any of the information contained herein. Visual estimates of mineral abundance should never be considered a proxy or substitute for laboratory analyses where concentrations or grades are the factor of principal economic interest. Visual estimates also potentially provide no information regarding impurities or deleterious physical properties relevant to valuations. The geochemical sampling data reported in this announcement is not intended to support a mineral resources estimation. All drilling widths given in this announcement are down hole widths and do not represent true widths.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(1,768)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(3,040)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(4,808)
8.4 Cash and cash equivalents at quarter end (item 4.6)	2,514
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	2,514
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.52
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Net operating cash flows are expected to vary as the Company prepares moves toward operations later in the 2026 calendar year, as well ongoing corporate activities relating to business development.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
During April 2026, the Company received cash proceeds totalling \$31.5m following the exercise and conversion of share options. The Company has multiple options to raise further funds and has successfully done so during the quarter.	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Yes. Refer to answer to question 8.8.2 above.	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- This statement gives a true and fair view of the matters disclosed.

Date: 30 April 2026

Authorised by: The Board of Directors

Notes

- This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: *Exploration for and Evaluation of Mineral Resources* and AASB 107: *Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
