Forrestania Executive Chairman David Gerraghty commented:

"Whilst the timeline for the acquisition of Kula Gold as indicated in this announcement represents a small procedural delay, we believe the transaction has become even more compelling by the recently announced intention to acquire the Lake Johnston Project from Horizon Minerals which defines a clear pathway to gold production for Forrestania's growing resource base.

The Lake Johnston acquisition occurred alongside a fresh injection of equity for the Company via a placement which has been further supplemented by the exercise of a series of listed options.

Our strategy of growing a gold development business of scale is rapidly taking shape and the acquisition of Kula Gold represents another piece of the corporate jigsaw which is falling nicely into place."

This announcement has been authorised for release by Forrestania Resources Limited Board.

About Forrestania Resources Limited

Forrestania Resources Limited (ASX: FRS) is a rapidly growing gold exploration and development company focused on building a portfolio of high-quality projects across Western Australia's premier mining districts.

Led by a refreshed and experienced board, Forrestania is strategically expanding its footprint across the Southern Cross, Eastern Goldfields and Forrestania regions through disciplined exploration, selective acquisitions and a commitment to unlocking the broader potential of these highly prospective belts.

In the Southern Cross district, the Company is advancing a strategy to define significant gold resources capable of supporting long-term development opportunities.

The Forrestania Project, from which the Company takes its name, lies within a world-class mineral province adjacent to the historic Bounty gold mine (~1Moz historic production) and in proximity to major mining operations, underscoring the region's exceptional prospectivity.

Further north, Forrestania's projects near Coolgardie and Menzies provide additional exposure to gold and base metals within proven mineralised corridors of the Eastern Goldfields.

Forrestania Resources is dedicated to creating shareholder value through systematic exploration, strong technical execution and a focused approach to growing its gold asset base across Western Australia.
